3 December 2015, FICCI, New Delhi

### About Event

India being one of the fastest growing economy of the world and with fast evolving business and regulatory environment, the food processing sector has immense potential to offer for growth.

While offering aplenty of prospects, India has a bright potential to emerge as an outsourcing hub in forthcoming years. Even the global food processing industry looks at India as a recharged economy, with foreign investors beginning to take notice of India as the land of opportunities.

With the objective of bringing the food business community together and collaborate, FICCI has been organizing FOODWORLD INDIA (FWI) since 2005. Since its inception, it has received encouraging support from stakeholders including all major food sector corporate, government officials, visionaries, international experts and researchers.
